DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Claims 1-22 are allowable over the prior art of record because none of the prior art of record whether taken singularly or in combination to teach the **claimed combination as recited** in a method for determining total leakage power for an integrated circuit having a plurality of circuit macros and a computer program product with instructions for determining leakage power for an integrated circuit having a plurality of circuit macros as require the corresponding steps recited in the claims 1 and 12. The prior art generally indicates the leakage power corresponding to the voltages supply generated that connected to the respective macros for operating the macros in the integrated circuit in which compatible with an application specification integrated circuit (PGP US20030034825, PGP US20030094661 and 6,721,927). Therefore, the prior art of record do not disclose the claimed combination as recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
